

18,100 GALLON WORKSAFE™ OPEN TOP TANK

Features

- Safety Stairway
- Complete Grip Strut Walkway with Safety Guardrails
- "V" shaped floor with 4" valves at each end for quick cleaning
- Open top for ease of viewing and cleaning
- Easy to move and transport

Technical

WorkSafe™ Open Top tanks come with a "V" shaped floor, allowing any residual fluid in the tank to easily flush out through the floor level 4" valves. Staircase, guard rails, and three 22" manway hatches are standard equipment. This allows easy monitoring of the fluids and easy cleaning when your project is completed.

Material Specifications

Steel construction with cross style internal bracing. Two 4" Butterfly valves located at either end of the "V" shaped floor. Permanently attached axles for maximum maneuverability. Staircase attached to the front end and a guard rail system on the tank walkway. Three 22" manway hatches. These tanks are open top with a grip strut walkway and a complete guardrail system running the length of the tank.
