

FreezeSentry™ Blanket Rentals

FreezeSentry™ Blanket heaters thaw ice, prevent water and flocculants from freezing, maintain the temperature you need to protect your equipment.

Pipe and Manifold Wraps

FreezeSentry™ pipe and manifold wraps are lightweight and durable and provide insulated directional heat throughout the length of the blanket's surface. Made of durable, pliable exterior vinyl, the FreezeSentry™ wraps will protect your pipes from the freezing ambient temperatures allowing a constant flow of fluid through the pipe even in sub-zero temperatures. Available in 120 configurations

FreezeSentry™ pipe and manifold wraps are available in 3 sizes-

- 4-8", 8-12", 12-16" diameter hose and pipe
- 120 V
- Water proof electric connections available
- Easy Installation

Tank Wrap – 4900 and 6900 Poly Tanks

FreezeSentry™ Rentals

- Control liquid temperature
- Insulate and heat liquid
- Custom sizes available
- 120 V
- Auto shutoff
- Preset thermostat temperature shutoff
(Water proof connections available)

55 Gallon Barrel Heater:

FreezeSentry™ Barrel Blanket and drum heaters come ready to use. Unroll, wrap it around your barrel, and plug into any outlet. FreezeSentry™ Blankets produce fast, even, consistent heat. The built in thermostat protects materials from over heating or freezing. Each barrel blankt has a 6 foot male cord and a 6 foot female end outlet.

55 Gallon

Up to 5 barrels per outlet

- 120 Volts, 522 Watts, 4.35 Amps/each
- Heat or evaporate water fast
- Prevent expensive material from freezing

Custom Sized Box Heater

The Custom Sized Box Heater provides freeze protection for liquid handling equipment

The Hot Box is a revolutionary new portable heat spreading technology for protecting liquid handling equipment in cold environments.

Built in thermostat controls temperatures up to 200° F. Protect polymers and paints from freezing. Portable design for easy setup and take down. Custom sized – 4' x 4' to 8' x 8'

Hot Box Heater

Bulk material freeze protection
4' x 4' panels
1 hot box per outlet

- 120 V
- Prevent bulk materials from freezing
- Easy access
- Portable
- Easy Installation
- Protects valuable tools and equipment.
- Digital Thermostatic controller standard with all boxes

Wellhead & Frac Hose Wraps

Wellhead/ Frac hose wraps

- 120 V available
- Prevents wellheads and frac lines from freezing while retaining access to all critical valves
- Easy installation

Pump Volute Heater

- Easy Installation
- Protect pump volutes from freezing avoiding costly damage and downtime
- Available sizes: 4", 6", 8", 10" -12", 16" and 18" pump volutes
- Available in 12, 120 V

Crew Shack Heater

The 2'x2' Extra Hot FreezeSentry™ blanket can replace baseboard space heaters.

Space heaters are very inefficient and potentially dangerous. The 2'x2' FreezeSentry™ blanket is perfect for personal foot warmth.

The 4'x9' extra hot blanket is designed for larger office spaces.

Crewshack foot heater available sizes 2'x2', 4'x5', 4'x9'.

Foot Heater

Crew Shack Foot Heater

Steel Frac Tank Blanket Heater
FreezeSentry™ Tank Blanket

- Easy Installation
- Extra hot insulated design
- Designed for Frac and round steel tanks
- Magnetic and strap connections available
- 120 V available

400 BBL Upright Tank

FreezeSentry™ Tank Blanket

- Prevent fluids from freezing
- Prevent ice caps from forming
- Create and maintain thermal flow
- Magnetic and strap connections available
- 120 V available

Water Truck Valve Heater

12V FreezeSentry™ for water trucks valves

- Save time by avoiding frozen water valves
- Connects to existing electrical system without draining battery
- Protects valves
